Returns & Faulty Items

- If any problem is encountered during or after installation, please call the ALL LED technical department to get the problem resolved as soon as possible.
- Please do not just return the item to the outlet you purchased it from, as you are only entitled to a replacement or refund after the unit has undergone testing and the unit has been confirmed as having a manufacturing defect/fault. Your statutory rights are not affected.
- The manufacturer will not be deemed liable or held responsible for any damages caused by faults or manufacturing defects that may be present in any of its products or the misuse or incorrect installation of this device. Please refer to our troubleshooting guide for further information.
- All goods are supplied under the terms and conditions of ALL LED LTD, a copy of which may be obtained upon written request.

Instructions

Quick Install Guide

To be able to use a remote with your Smart Home Hub and Intelligent lighting follow (1 and 2). If you would like to use your remote directly with your Intelligent lighting without a Hub, follow Instructions (2).

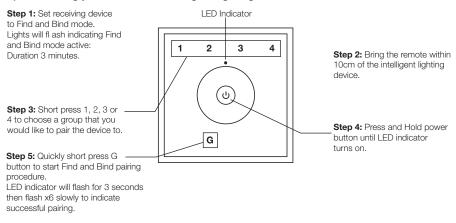

1) Connecting Your Remote to a Smart Home Hub Required if using a hub.

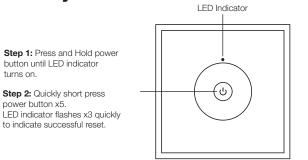

Install Tip

Care - Unit is supplied with a preflexed plug. Do not install in wall prior to programming. Unit must be in physical proximity to receiving devices. Recommended to set up devices prior to install.

2) Connecting your Remote to Intelligent lighting.

Factory Reset Remote

Note: All configuration parameters will be reset after the remote is reset or removed from the network.

Removing Intelligent Lighting from your Remote
